

Several skeletons in a good state of preservation have been discovered in an Indian mound in Barron county, Wis.

Three members of one family at Baltimore have died of trichinosis, and a fourth is at death's door. The pork was eaten May 10th.

Since March 1 to date Chicago packers have slaughtered and salted 1,650,000 hogs, against 1,146,000 for the corresponding period a year ago.

The best selling book ever published in this country will be Grant's Personal Memoirs. It is thought the sales the first year will reach 500,000 sets. Mrs. Grant's profit on that number will be over \$500,000.

A Liverpool paper claims that Dr. Bell's telephone patents were offered in London by an agent of Bell's, for \$150,000. No one would buy it at that price. But since that time the same men have offered \$2,700,000 for the patent in London alone.

General and Mrs. John A. Logan will leave Washington in a few days for a season of rest, first going to Atlantic City and thence to the Thousand Islands, in the St. Lawrence, as guests of Mr. G. B. Marsh, of Chicago, who owns a delightful summer residence on Cherry Island.

The authorities of California are now expending their energies on the unfortunate commercial traveler who happens to be caught in their territory without a state license for which he is required to pay twenty-five dollars. A late San Francisco paper devotes a column to the various schemes resorted to by her vigilant detectives to capture the unwary victims.

The mining interests over on the Pacific Slope must be wonderfully depressed when a city like San Francisco floods it necessary to tax all industries, resented outside of her own state. The "penny wise and pound foolish" doctrine was exploded years ago, and California has gone back twenty-five years to resurrect a law which should be forever abolished in a free land.

Reports come from Washington that there is a probability that evidence would be forthcoming showing a systematic and reckless misappropriation of public money in the government coast survey. This report has brightened up the democratic press a little. But it will be disappointed. The "frauds" which the new administration has been fishing for these five months are non-existent.

The body of General Grant will be kept at Mount MacGregor for some time, in accord with a request made by himself. Strange requests of dying people in relation to the disposition of their remains are not uncommon. The body of the historian Prescott, in accord with a request made by himself, was looked up in his library, with his books and papers, for twenty-four hours—Boston Traveller.

Clara Louise Kellogg tells the following story of a costly breast-pin she wears: "It was given to me by the Duke of Newcastle in 1838. It was during the Brighton races that the duke of Newcastle invited mother and myself to be the guests of his family at the races. In the invitation he said that he had been losing quite heavily, and jokingly wrote that if I came it might change his luck. We went, and that very day the duke won \$50,000, and to had this pin made in commemoration of the event, with the picture of the winning horse and rider with its colors, and presented it to me."

Extremely hot weather again prevails in the eastern states, and the heat wave has extended to Great Britain. In Boston, Saturday, at the conclusion of the parade of the Second Brigade of the Massachusetts militia, about 100 men fell to the ground prostrated by the heat. To New York, Sunday afternoon, the mercury marked 96 degrees. Twenty-one cases of prostration, including four deaths, occurred in that city during the day. Sweltering hot weather is reported in Philadelphia. In Great Britain, children are dying by hundreds, and scores of asthmatics of both men and women are reported daily.

The records of the rebel Libby Prison hospital, at Richmond, Va., are now preserved in the government archives at Washington. They are in a big, old book two inches thick, about three feet long and two feet wide. The paper is now yellow with age, but the ink is as black as when it first flowed from the pen. In the book more than 17,000 patients are entered, and the record shows that about 15,000 of them left the hospital for the grave. Whole pages show that the prisoners died on the same day of their entry to the hospital, and the diseases which are recorded opposite their names are those of dysentery, etc., diseases which arose, beyond doubt, from the poor condition in which they were kept.

Mark Twain has written a letter in which he asserts that his children are well-behaved, well-governed and companionably charming; and he refers to Mrs. Harriet Beecher Stowe, Charles Dudley Warner and his other Hartford neighbors as witnesses. He attributes this goodness to his wife's training. He emphasizes the point in her discipline that no promise is broken to the youngsters, whether it involves a whipping or a flogging. In administering corporal punishment she invariably lays a few hours elapse between the sentence and the execution, so that no anger on her part shall enter into the matter; and she affirms that the child never goes away from the scene of torture until it has been loved back into happy-heartedness and a joyful spirit.

Mr. A. C. Robinson has sold out his interest in the Green Bay Advocate, one of the oldest papers in Northern Wisconsin.

sin, to Mrs. C. D. Robinson, his brother's wife. Those brothers have been associated together in the publication of the Advocate for thirty-nine years. A Green Bay paragraph intimates that the recent transfer is the outcome of considerable litigation. It is also intimated that E. Decker of Oconto is interested to some extent financially. The paper will be published under the name of Robinson & Co., and the name of C. D. Robinson will still appear as its editor, although that gentleman's intimacies have prevented him for many years from doing any editorial work or having more than a nominal connection with the paper.

The opposition to Central Park as a burying spot for General Grant is greatly increasing. It is held by the general's most intimate friends, that either Washington or West Point should have been selected; and General Grant himself was inclined to favor West Point, and so expressed himself to George W. Childs, his very intimate and constant friend. But if West Point was considered too much out of the way, Washington might have been selected on the strongest possible grounds. General Grant belongs to the nation, and as Washington is the capital of the Union which he did so much to save from dissolution, it would be eminently proper to bury his body there, and also there erect a monument to the memory. There would be some appropriateness and sacredness in having the grave of the old warrior near the soldiers' home—the dividing line between the north and the south; but to make his last resting place in a park given to gaming, pleasure and frolic, is out of harmony with the relation of the man to all the country.

The Milwaukee Evening Wisconsin reports Hon. C. E. Townsend, saying that a special session of the legislature to come winter to redistrict the state into counties and assembly districts. In view of the action of the legislature last winter the governor will not likely call that body together for that purpose. The legislature over until January, and refused to do so. It also refused to adopt a resolution requesting the governor to call a special session. After this action the governor's hands are tied. He cannot call a special session. If that body could not take the responsibility of adjourning over until next January, it could hardly ask the governor to take the responsibility of calling it together.—Milwaukee Democrat.

The chances are that Governor Rank will not call an extra session for redistricting the state. It is not necessary that this should be done, and therefore the matter can lie over until the regular biennial session. If there were good reasons why such a session should be called, the governor would call it, but there does not seem to be a sufficient importance attached to the question of redistricting the state next winter to justify the expense of an extra session.

The case for General Grant's remains, manufactured in Rochester, New York, was completed at noon Sunday. Early in the day a crowd began to gather at the factory. The doors were not opened until 1 o'clock, when the crowd began to pass through the building. The throng did not seem to diminish, and many were obliged to go away without seeing the casket. The doors were closed soon after 3 o'clock, as it was necessary to peek the casket for shipment on the afternoon train. It is estimated that 15,000 people viewed the casket. It is known to the trade as the "style B" state casket, cloth-covered, metal. It is six feet long, banded with solid silver frames and portals. The metallic part, which is inside the red velvet covered shell, is of highly polished copper one-eighth of an inch thick. The top of French plate beveled glass, upon the length. The inside of the casket is lined with light cream satin, beautifully tufted, with an elegant pillow on which, in raised letters on embroidered ribbon, are the initials "C. S. G." The handles are of solid silver, specially designed for the casket. The outside box is of imported cedar, highly polished and decorated with handsome mountings, and is lined heavily with deep purple plush. Altogether the casket is perfectly air-tight and practically indestructible.

Milton.—The lawn party on college campus, Thursday afternoon and evening, was quite liberally patronized, and net quite a handsome sum of money into the treasury of the S. D. B. society, under whose auspices it was given.

The death of General Grant, though not unexpected, was the topic of conversation here last week and is daily mourned by all, without regard to party sect or creed. The postoffice, Milton house, Telephone office and many of the business places were draped with black on Thursday, as a token of respect to a great man gone before the river.

Mr. A. F. Johnson has rented the A. S. Dickinson house and will make this village his home.

The Cowan case, mentioned in Friday's Gazette, should have been charged to Milton Johnson instead of this village. We don't permit boy benders to live in this section.

Acron Eastman, who has been visiting relatives here left for his home in New York state Monday.

Mr. R. D. Burdick intends to build a large house this season on his lot adjoining "Aunt Della's."

Mr. Tompkins, of Milton, Wis., is visiting her brother, Wm. Bussey.—Durand Correspondence Rockford Gazette.

Mr. W. J. Durbin, of Milwaukee, has been visiting her aunt, Mr. Albert Whitford, for a few days past.

Mr. W. D. Crandall, of Niles, N. Y., arrived in town last week to spend a few days visiting relatives. She is the guest of her brother-in-law Ezra Crandall.

A number of our citizens talk of leaving for the east next week to enjoy a few weeks vacation among friends.

Another thought too much hot, rainy weather lately for babies and lay.

The weather for the berries in fact we do not remember seeing hotter consecutive days.

Rev. J. B. Clarke, of West Edmeston, N. Y., camped at the S. D. B. church Sunday in a missionary and preached a missionary sermon.

Mr. and Mrs. Coon, of New York, are

visiting relatives and friends here and at the Junction this week. They will return to their eastern home next week.

—J. L. Burdick has recovered sufficiently from his "dying leap" to enable him to get about by the aid of canes. He expects to go to work again this week.

The advance guard of La. soldiers camped west up to Madison this week.

—John Griffiths, of Janesville, was in town Monday on business.

Barley is about ready for the sickle and is a fair crop. Corn is growing very fast and tobacco is doing the same.

Edwards' Balm of Life is sold by Palmer & Stevens. Trial bottle free.

SEN IN HIGH PLACES

PROMISES TO WRECK THE BRITISH RADICAL PARTY.

And Thereby Fix the Conservatives in Power Indefinitely—Another London Sensation, Which Promises Important Political Results—Elaborate.

London, July 28.—A sensational exposure was threatened, which bids fair to eclipse even that lately made by The Pall Mall Gazette. It is a story of the inner workings of the Radical party in the House of Commons, and in the lobbies of the House of Commons. In fact, so greatly were the members of the latter body outraged in the disclosure of the scandal, that the ordinary business of the House was practically suspended. The facts in the case are believed to be unquestionable, but such strenuous efforts are being made to keep them out of the public prints, that it is doubtful if the parties to the revolting affair will be mentioned by name by any of the morning papers, in view of suits for libel in case the attempt to effect a compromise succeeds.

The matter, however, has been whispered around too generally, however, to prevent it from becoming public property, even without the intervention of the press. The following are the leading details of the story, which have been given to the public by the Pall Mall Gazette, and which are believed to be true.

One of the most noted Radical members of the late cabinet, a widower, was recently accompanied to his own private residence by the wife of a gentleman of considerable rank in London. The woman's letter and alarm she found the apartment already occupied by a third person—a woman. She flew into a passion, bitterly upbraided the famous politician for his conduct, and her indignation was so great that she threatened to expose the whole affair and ruin forever the lecherous statesman. Proceedings to this end were begun, but immediately such powerful influences were brought to bear on behalf of the accused, that for the time being publicity was averted, while a noble and a very popular member of the House of Commons, both of whom were colleagues of the unfortunate Radical in the late cabinet, strove to bring about a settlement of the affair. They were spurred on in their endeavors not only by personal friendship, but by the knowledge of the fact that an exposure of the matter would have a serious effect upon political affairs in the near future. The hero of this unhappy event has been looked forward to as one of the pillars of the new Coalition party, while the scandal is likely to have in the coming election, and they are variously affected by it. The Tories are beside themselves with joy, believing that the exposure will destroy the chances of the Liberals on account of their close political affiliation with the Radical faction. The Liberals are correspondingly blue, and it is said that the sums of money mentioned as having been offered in exchange for obtaining silence were contributed to by the leaders of the Liberal party as a political contribution from themselves and their followers. On the other hand the Tories are understood to have been using every possible means to what the anger of the injured husband and encourage his intention to push the Radical leader to the wall, knowing that they would reap political benefits from his fall.

The conduct of the person whose subject of gossip is confined to his house and accuses himself from political activity on the plan of illness, has not had a tendency to ally the existing excitement.

In the lobbies of parliament the subject was looked at, of course, principally in relation to its political aspects. But in the clubs and other places of social resort, where it was discussed, the peculiar nature of the scandal, and the fact that the couple most commended upon. Coming as this revelation does close upon the heels of the horrible exposures of The Pall Mall Gazette, the confirmation of the existence of such practices among persons of the highest social, intellectual and political status, is considered as highly significant. The outcome of the affair is awaited with the greatest interest in all quarters.

Travels of the Cholera. Monday, July 28.—The recent storms in Spain have had an adverse effect upon the cholera epidemic, which has extended to the province of Logrono. The mortality from the scourge continues to average about 1,000 daily in the kingdom. All who can get away from the infected district, where the bodies of many victims rot in the streets, and the supply of nurses for the sick is utterly inadequate. There were 2,500 new cases Sunday and 910 deaths.

Illite Escapes Blame.—London, July 28.—Much surprise has been caused by the sudden abandonment of the Radical meeting, which was to have been held at Sir Charles Dike, and at which he was to be the principal speaker. At the last moment Sir Charles excused himself, saying that he was utterly prostrated in consequence of the mental strain of the past few weeks.

John Bright With Ignorance Calm.—London, July 28.—It is not believed that Mr. John Bright will make any reply to the strictures of Mr. Callan, M. P., upon his speech at the Spencer banquet, criticizing the Irish policy. Mr. Bright is pained by the remarks of the speaker, and may not appear again in the present hour.

Russia Gave a Point Blank Refusal.—St. Petersburg, July 28.—Three weeks ago, an official statement was made by the Russian foreign secretary, M. D. Giers, that Russia refused to withdraw Russian troops from Poland, and that M. D. Giers refused to make any concession.

Going to Hospital Relief.—London, July 28.—In the house of commons, Monday, the Rt. Hon. Robert Burke, Tory member for Lynn Regis, announced that the government had taken steps to relieve the garrison at Kasala.

Getting Tired of the French. Paris, July 28.—In the chamber of deputies, Monday, M. de Fréville, minister of foreign affairs, stated that the French were endeavoring by the offer of a large sum of money to secure the abandonment by France of her military movements in Madagascar.

John Is Dead, After All. London, July 28.—The Italian priest, Bonorini, arrived at Wady Halfa and confirmed the death of Oliver Pain, the French journalist who was with El Mahdi.

The Transvaal Bank Suspends. London, July 28.—The Transvaal bank is unable to meet its liabilities, and has announced a suspension of payments.

Anarchy at Dongola. CAIRO, July 28.—Complete anarchy reigns at Dongola in consequence of the withdrawal of the British troops.

He Wants to Settle with John Roche's Assignees. WASHINGTON CITY, July 28.—Secretary Whitney has addressed a letter to Mr. John Roche's assignees stating explicitly the stand he proposes to take in dealing with the cases of the Dolphin and the unfinished business. After stating that the law which governs individuals in such business transactions should govern the action of the department, the secretary goes on to say: "The longest method of dealing with the matter which would be pursued by private parties would be, first, to become satisfied that the assignment was in good faith, then to proceed to the reviving of the assignment of bringing about a settlement of current and incomplete contracts upon a fair and just basis for both parties. If I have the power, I will enter into the consideration of the matter, and I will endeavor to settle upon some just and fair basis for the disposal of the matters. Of this I informed you at our meeting in New York. This is the longest method of dealing with the matter which would be pursued by private parties would be, first, to become satisfied that the assignment was in good faith, then to proceed to the reviving of the assignment of bringing about a settlement of current and incomplete contracts upon a fair and just basis for both parties. Of this I informed you at our meeting in New York. This is the longest method of dealing with the matter which would be pursued by private parties would be, first, to become satisfied that the assignment was in good faith, then to proceed to the reviving of the assignment of bringing about a settlement of current and incomplete contracts upon a fair and just basis for both parties. If I have the power, I will enter into the consideration of the matter, and I will endeavor to settle upon some just and fair basis for the disposal of the matters. Of this I informed you at our meeting in New York. This is the longest method of dealing with the matter which would be pursued by private parties would be, first, to become satisfied that the assignment was in good faith, then to proceed to the reviving of the assignment of bringing about a settlement of current and incomplete contracts upon a fair and just basis for both parties. Subscribers to THE GAZETTE who do not receive their paper regularly, will receive a copy of the paper containing the following notice, at the expense of the publisher.

LOCAL MATTERS.

Several building lots for sale in the first ward.

Residence on South Main street—Within the next thirty days, I will sell my residence to the highest bidder. Terms liberal.

About 30 acres farming land for sale, near this city, with or without the crops. Good buy.

Farmers, merchants and all others can save money by purchasing their paper by the package at Sutherland's bookstore.

All wool black bunting worth 25c only 15c at Archie Reid's closing sale.

Ladies' fine note paper, ruled and unruled, with envelopes to match at Sutherland's bookstore.

To Whom It May Concern.

All persons knowing themselves to be indebted to the late B. B. Harrison, are requested to make arrangements for settling the same before August 15, 1885, as all bills remaining unsettled at that time will be put into the hands of a lawyer for collection.

Address all communications to Mrs. Elizabeth Harrison, 3033, Groveland avenue, Chicago, Illinois.

Summer goods at 1/2 price at Archie Reid's.

Best gold pens at Sutherland's.

150 fine sample fans to be closed out at less than wholesale prices at Archie Reid's.

Kings have come. Another case of the celebrated "King Cigars," at Dennison's.

California plums and prunes by the basket, cheap enough to eat, at Dennison's.

Fruits in great variety, at Dennison's.

Houses and two good lots in 2d ward for \$1,100.

Genoa gauge underwear 75c reduced to 40c; 40c quality reduced to 25c; 30c quality reduced to 20c and everything in the line of summer goods greatly reduced at Archie Reid's closing sale.

For SALE—Tobacco warehouse lot, also 4, 5, 8, 10, 15 and 16 acre parcels of good tobacco land in or near the city. Some with, some without improvements. Also 80 acre farm, 2 1/2 miles from the city, cheap.

White goods and embroideries cheap at Archie Reid's.

Another large lot of sample corsets just received at Archie Reid's. A regular 75c corset for 35c.

The best white shirt in the world re-embroidered back and front only 50c at Archie Reid's.

A very complete line of carriage harnesses and riding saddles, at Jas. A. Fathers, corner of Court and Main streets.

New assortment of combs, toothbrushes, toilet soap and face powders, at Palmer & Stevens' drugstore.

Summer goods at 1/2 price at Archie Reid's closing sale.

I offer for sale the farm of 151 acres owned by J. W. Dean, adjoining Emerald Grove. It is one of the best farms in Bradford, and is adjacent to churches, a graded school, postoffice and other advantages offered by a country village. The improvements are good. Mr. Dean's failing health induces him to remove to California at once, and a price has been made on the farm that will insure a ready sale.

Three sizes of the crucible cooking crocks with bala, just the thing for cooking rice, oat meal etc., don't burn the iron at Wheelock's.

Until further notice I will furnish carriages inside of city limits for funerals at \$5.00 each, when hearse is ordered.

Money at 7 per cent. Call at Goudy Bros., over Kimball & Lowell's.

Now we have got it—A Badger range which will be sold at a bargain. Also a large stock of other goods which will be sold to suit the times, at the second hand store of Sanborn & Canfield.

C. E. Bowles has money to loan.

Light and heavy harness, lap robes and horse clothing at Jas. A. Fathers.

Society's Hard Rubber Trusses at Eldredge's.

Trusses accurately adjusted at Eldredge's.

FOR SALE—A good young milch cow. Apply corner Glenn and Ann streets second ward.

If you want a loan of any amount, call on C. E. Bowles.

WANTED—Ladies and gentlemen in city or country to take light work in city or country. Send a note with your name, address, work sent by mail, no charge. We have good demand for our goods and services. Address: C. E. BOWLES, 244 Vine St., Cincinnati, Ohio.

A CARD—To all who are suffering from nervous debility, early decay of manhood, loss of vitality, etc., send a note with your name, address, work sent by mail, no charge. We have good demand for our goods and services. Address: C. E. BOWLES, 244 Vine St., Cincinnati, Ohio.

Nervous Debility Men.

Thousands of cases of Nervous Debility, mental and physical weakness, loss of vitality, etc., send a note with your name, address, work sent by mail, no charge. We have good demand for our goods and services. Address: C. E. BOWLES, 244 Vine St., Cincinnati, Ohio.

FREE TRIAL.

Cholera and infectious diseases. We have the disinfectants recommended by the American Public Health Association. Call for Descriptive Pamphlet, with directions for their use.

PRENTICE & EVENSON.

Opposite Post Office.

THE CITY GOVERNMENT.

Mayor Winans went to Broadhead today on legal business.

Mrs. Charles B. Cohrad is home from her eastern pleasure trip.

Mr. and Mrs. J. L. Ford are among the campers at Monona.

The Canada thistles and noxious weeds must go—Hogan is after them.

—Janesville City Lodge No. 90, I. O. O. F., occupy Odd Fellows hall this evening.

—Mrs. D. L. Carr, of the fourth ward is suffering from a severe attack of congestion of the lungs.

—Judge J. B. Cassady came down from Madison this morning, and spent the day in this city.

—Mrs. Dr. Q. O. Sutherland returned from Geneva Lake last evening, and left for the camp this morning.

—Hon. A. Warren Phelps, wife and two sons are in the city, the guests of Dr. J. H. Warren, of the third ward.

—It is now given out that Mr. Lou Rockham is slowly gaining in health and has now a very good chance to pull through.

—Marshal Hogan arrested a "crook" last evening charged with robbing one of his companions. He will have a hearing before the municipal court.

—Mr. Adam Andre, for many years a resident of Janesville, and late of Delaware, is in the city visiting friends en route for his home in Kansas.

—Hon. F. S. Lawrence returned last evening from Geneva Lake, where he has been camping for the last few weeks. Mrs. Lawrence will remain for some time longer.

—A West Milwaukee street business man amused the bystanders this afternoon, when the sun heat was about 112 in trying to out-jump a companion—the stakes being the beer.

—Miss Grace Babcock, of Dixon, Illinois, who has been spending a couple of weeks with her grandparents, Mr. and Mrs. L. S. Fellows, Glenn street, second ward, returned to her Dixon home today.

—Another of those very pleasant band concerts will be given at the Riverside rink Wednesday evening. The full band will be in attendance, and Mr. G. A. Shurtliff will be on hand with a supply of his delicious cream.

—A fun-loving party composed of Mr. and Mrs. G. Williams, Mr. Stanley J. Smith, Bryant Draper, Miss Lilly Smith, Mr. Miller Culkins, Miss Culkins, and the Misses Draper are spending the day picnicking at Clear Lake.

—The trains leaving this city for Madison today were literally crowded with people going to Monona. Among the people from Janesville were: Mr. W. G. Wheelock and wife, Mrs. A. A. Jackson and two daughters, and the two children of Mr. and Mrs. John Slightman.

—The entertainment given last evening by the Y. M. C. A. at their hall was well attended. The original programme was carried out, giving the audience a very pleasant evening. The music and recitations were well selected, and the number of talented people who took part are sufficient to show that everything was well brought out.

—The ordinance requiring the railway companies to place flagmen at the Jackson, High, Academy and Pleasant street crossings, will not be in force until August 13th, that being the date of the last publication in the "Official paper." The friends of the ordinance, especially those residing in the first ward north of the railway tracks, are well pleased at the action of the common council in passing the ordinance last evening.

—Mr. Charles Slager the young man who was shot Sunday afternoon at the farm of H. B. Pales, died last evening. His death was not unexpected as the wound was a very severe one, and the bullet was lodged out of reach of any instrument. Deceased was a man about twenty-one years of age, unmarried, and had been working as hired man for some time. His parents live in the northern part of the state. The funeral will take place to-morrow morning at the residence of Mr. Fales.

—The local paper, says the New York Tribune, "is the best read paper in the world. All the city papers cannot supply the place of the home paper. No other contains the interesting things happening before the doors of the town people; no other paper gives the name of the next ball, picnic, or political meeting; no other publishes the roll of honor of the public school; no other discusses the affairs of the town or the country, or gives in detail the local news which cannot be obtained from any other source. Everybody reads it, and that is why it is the best paper in the world."

—There will be a meeting of the Business Men's Association at the Phœbus block this evening at eight o'clock. We believe that if the business men of this city would unite in a permanent organization they could accomplish good results for themselves and the city. A good beginning was made last winter, more than thirty names were appended to the call for such a club, but for some reason the matter was allowed to go by default. If the business men of the city would get better acquainted with each other, they would set with more harmony and force in correcting evils and in promoting the welfare of the whole community, as well as of themselves.

—Yesterday noon as John Henston was talking with two men near the ice house, one of them went through his pockets to the extent of some fifteen dollars. John caught the man's hand but could not recover the riches and the man after kindly returning one dollar walked off with the rest. Henston gave a description of the thief to Marshal Hogan who came to the conclusion that the light fingered gentleman was Martin Geogan. Martin was therefore arrested and confessed that he had been with Henston but did not admit taking the money. His case will perhaps be tried this afternoon. The court this afternoon is engaged with the case of the state against Robert McGeechie, charged with refusing to provide for his wife.

—Yesterday Messrs. Kimball & Lowell, agricultural implement dealers, of this city, sold to Mr. Alexander McGregor, of Johnston, one of the J. I. Case colored steam threshing machines, for which

THE CITY GOVERNMENT.

they are the Janesville agents, the purchase price being \$1,950. This is unquestionably one of the most perfect and complete threshing machines in the state.

The engine is a twelve horse power three-horse, self-steering, the boiler jacketed, manufactured expressly for Mr. McGregor. The engine has the patent balance valves, and the engine and thrasher have all the latest improvements. The machine is of the "California" style, with a capacity to thresh from 3,000 to 5,000 bushels per day. It has an elevator for the purpose of loading the grain, thus saving the labor of one or more men. The reputation of the J. I. Case Manufacturing company is known throughout the world, and as the leader in threshing machines none dispute, having taken the first prize wherever and whenever exhibited. This threshing outfit of Mr. McGregor is unquestionably the most complete of any in Rock county, and with such a fine thrasher he will be full of business the coming fall.

THE CITY GOVERNMENT.

Regular Meeting of the Common Council.

The Ordinance Requiring Flagmen at the Street Crossings Passed.

Marshal Hogan Elected Commissioner on Canada Thistles.

Miscellaneous Proceedings.

The common council held a regular meeting last evening at the city hall, at which all the aldermen except Ald. Daly were in their seats. His Honor, Mayor Winans, occupying the chair.

The clerk read the journal of the last regular meeting which was approved.

The bond and oath of office of M. C. Smith, as school commissioner, was read, referred to the judiciary committee found in due form, and approved by the council.

The clerk read the application of Ald. P. J. Lennartz, for sidewalks on River and Franklin streets, fourth ward. Placed on file.

A communication was read from the chief engineer of the fire department, asking permission to procure a number of hose protectors for the street crossings, two for each of the book and ladder company, and hose spanners. Also asking the council to take action on the procuring of rubber coats for the department, and to the fact that the supply of coal was exhausted. Referred to the fire department committee.

The clerk read a large number of bills against the various funds, which were appropriately referred.

The clerk reported that the commissioner on Canada thistles had failed to qualify.

Ald. Croft, of the finance committee, reported in favor of allowing a miscellaneous list of bills against the various funds as follows:

General fund.....\$ 40.00
Fire fund.....24.00
Board of health.....1.00
Board of education.....1.00
Fourth ward fund.....1.00
Fifth ward fund.....1.00
Sixth ward fund.....1.00
Bridge fund.....1.00
Total.....\$ 51.00

The report was concurred in.

City Attorney Smith, to whom was referred the matter of boundary line of the new Jefferson block on West Milwaukee street, stated that he had examined the survey of the city engineer, and that according to that survey the building was not in the street. The report was adopted on motion of Ald. Croft.

The special committee to confer with Captain Norcross, relating to the supply of water at the foot of Dodge street, as per his agreement, was granted further time to report.

City Attorney Smith reported an ordinance entitled: "An ordinance to prevent the selling of articles on or setting up and maintaining of any booth, article, game, practice, amusement, device near the streets of the city of Janesville without a license."

The ordinance was read the first and second times, and laid over under the rules.

Ald. McLean—instructing the street commissioner to cut the thistles and noxious weeds in Gold and Jefferson streets, fifth ward. Adopted.

Ald. McLean—granting J. W. Blesed permission to occupy a portion of West Milwaukee street while building with the usual restrictions. Adopted.

Ald. Fathers presented the request of A. P. Levoisy to be allowed to grade Division street, between South First and South Second second streets, at his own expense. Request granted.

Ald. Croft—that the grade of Division street, between East Milwaukee and North First streets, as recorded on the grade book be adopted. Adopted.

On motion of Ald. Croft the rules were suspended, and the bill of J. M. Bestwick & Sons, \$51.00, for material furnished in draping the city hall and engine houses, was allowed.

Ald. Fathers—that the city engineer report a grade for the intersection to Division and Sharon streets, third ward. Adopted.

Ald. Shearer—that Herman Buchholz be granted permission to occupy portions of East Milwaukee and Bluff streets with building material, subject to the usual provisions. Adopted.

Ald. Lennartz—an order for the construction of sidewalks on River and Franklin streets, fourth ward. Adopted.

Ald. McLean, of the fire department committee, reported in favor of allowing the chief engineer to procure hose protectors for the street crossings, fire axes and hose spanners, as requested. Adopted.

Ald. Croft moved that Constable J. R. Ryan be appointed commissioner on Canada thistles.

Mayor Winans held that this was a city officer and the election must be by ballot.

The council proceeded to ballot—Messrs. Barnham and Rooney appointed tellers.

The ballot resulted:

John W. Hogan.....1
J. R. Ryan.....1

Second ballot.

John W. Hogan was declared duly elected.

Ald. Fathers called for the third reading of the ordinance requiring the rail-

THE CITY GOVERNMENT.

way companies to place flagmen at certain street crossings. The ordinance was read as follows:

AN ORDINANCE requiring the railway companies to place flagmen at certain street crossings and to place said crossings at the following places:

The Mayor and Common Council of the City of Janesville do ordain as follows:

SECTION 1. That the Chicago, Milwaukee & St. Paul railway company, and the Chicago & Northwestern railway company, be and each of them is hereby required to place and keep a flagman at each of the following street crossings in said city, to-wit:

At the Jackson street crossing.

At the Academy street crossing.

At the Pleasant street crossing.

And by the said flagman to seasonably warn all persons about to pass over any of said crossings, of danger from approaching or passing engines or cars.

SECTION 2. Each of said railway companies is hereby required to plank and keep in good repair over its tracks at each of the aforesaid street crossings, suitable carriage ways or crossings to the full width of said respective streets.

SECTION 3. Either of the said companies shall fail to comply with any of the requirements of this ordinance, said railway company so failing shall pay to the city of Janesville the sum of fifty dollars (\$50) for each failure, or to place and keep a flagman at each of said street crossings, or to plank the same as aforesaid, shall be deemed a failure to comply herewith.

SECTION 4. Nothing herein shall be taken or construed as an assent, by said city, to any unreasonable use of said streets, now or hereafter made by said respective companies.

SECTION 5. This ordinance shall take effect, and be in force from and after its passage and publication.

Ald. Croft moved to amend by striking out Academy and High streets.

Ald. Croft made some remarks in support of this amendment. He was followed by Wm. Ruger, Esq., attorney for the Northwestern company, in support of the amendment. Mayor Winans spoke earnestly in favor of the passage of the ordinance without amendments.

The amendment was lost—Ald. Croft and Rooney voting aye.

The ordinance was then passed by a viva voce vote.

The council then adjourned.

RUSSIAN APPLES.

Investigation by a Committee of the State Horticultural Society.

To the Editor.

BROOKFIELD, Wis., July 27.—The heavy loss of fruit trees from the effects of the last severe winter caused a very general desire to know if we have any varieties of apple trees hardy enough to endure our winters.

At the summer meeting of the State Horticultural society held at Weyauwega in June Mr. Peffer, of Pewaukee, Mr. Rudolph, of Appleton, and myself were appointed a committee to go to Baraboo, and examine Mr. Tuttle's experimental orchard of Russian apple trees; he has about 80 varieties (not all fruited yet). On July 22d Mr. Peffer and I met at Mr. Tuttle's and looked at his trees over very closely, also two other young orchards near there that were largely of the Russian.

We went from there to Beaver Dam, and examined Mr. Perry's Russian trees. We found the Russians very nearly all perfect in health and thrifty, except occasionally a little fire-blight. They have not all been fruited yet, but out of the 37 varieties imported from Russia, there have been enough to ensure us ten to fifteen choice kinds extending through the whole season. It is very fortunate we have these Russians to fall back on just at this time. We found Fameuse, plumb, idler, golden lasset, Talman, water, fell orange, hess, and in fact, almost all of the old standard trees were nearly all either killed or badly damaged. We saw some orchards entirely wiped out, except crabapples. The "twelves" were nearly all right, and highly prized by all.

LAKEVIEW ASSEMBLY.

An Increased Number of Campers—Opening of the Grounds—The Program.

(Correspondence of the Gazette.)

LAKESIDE, July 28, 1885.

To-day, the first day of the Monona Lake Assembly, has dawned bright and beautiful, showing 825 tents pitched upon the assembly grounds. The expectation of a successful encampment this year, is realized. Last year there were but 225 tents and about 1,200 campers, while this year the estimated number of tents will be 375 to 400, with 2,000 to 2,500 campers.

Every convenience is offered to campers that could be desired; the managers having spared no time or expense to beautify and improve the grounds, and to say there is no more enhancing spot in Wisconsin, to invite the attention of those seeking for rest or pleasure.

The lakes and trees seem to invite cool breezes to dispel the intense summer heat, and thus nature supplements the short comings of art, making the Monona assembly all that could be desired.

A goodly number of improvements have taken place since the last session, among which is the new building to be used as a children's tuberoles and for the C. L. S. C. It is built from floor to ceiling, entirely of cedar; the outside covering consists of one-half round logs with the bark on and being built upon the rustic style of architecture, forms an edifice at once novel and attractive.

This forenoon people are pouring into the grounds by every available conveyance, and to-night the assembly will be a veritable city of tents.

The principal features of the afternoon entertainment are dramatic readings by C. F. Vanderbilt, Meigs Sisters quartet, and in the evening a lecture on "The Philosophy of Humor," by Rev. C. G. Lowmeyer, of Chicago.

Tomorrow morning, the time will be spent in perfecting the organization of the various institutions, and several lectures and an eloquent reading.

In the afternoon, Dr. Lorimer will lecture upon "Society, or present problems," followed by meetings of the lecture upon social normal and C. L. S. C. round table.

In the evening, Prof. W. I. Marshall will give a stereoscopic exhibition and lecture upon "Wonderland."

THE WEATHER.

At seven o'clock this morning the thermometer indicated 74 degrees above zero. Clear, with southwest wind. At 1 o'clock p. m. the register was 93 degrees above zero. Partly cloudy with southwest wind. For the corresponding hours one year ago, the register was 67 and 91 degrees above zero.

TOBACCO MARKETS.

What Dealers and Growers Are Doing Here and Elsewhere.

JANESVILLE.

The '84 crop is still in the sweat, and will not be ready for upwards of a month; but cases which have been opened, show that the quality will be vastly superior to the '83 crop. Tobacco is growing finely, the plants in many cases being ready for topping. For some fields the season has been almost too favorable, if such a thing is possible—the buds showing before the leaves have attained sufficient size. Topping should commence early, though each grower must determine for himself how many leaves his land will mature, and set accordingly. The heavy rain of last Saturday did considerable damage in some spots, especially where the land was low or on a side hill. Some of Mr. John Decker's land was flooded, and M. H. Soverhill reports that in his field there were four feet of water in one place. The market is very quiet, the only movements in the fall being shipments from branch warehouses here to the different firm headquarters in the cities.

NEW YORK.

In seed last, low grade '84 Pennsylvania played a prominent part, sales of which numbered about 1,500 cases. The prices realized were from 7 1/2 to 9 1/2 cents. They were taken mainly for export and binder purposes.

In '84 Wisconsin very little was done. A bona fide sale of 250 cases at 21 cents was reported.

In '84 Connecticut second a limited business was transacted. The price demanded was about 15 cents. Manufacturers are looking for a substitute, believing to have found it in '84 Pennsylvania second or low grades of Havana seed, running.

In '84 Connecticut broad leaf wrappers some movement was noticeable; two lots numbering in all 280 cases sold at 33 cents.

In '84 Ohio, only that portion known as "Little Dutch," came into prominence. About 300 cases of this tobacco found buyers, mostly manufacturers. The quotations of the seller are from 12 1/2 to 21 cents.

Sumatra sold largely; prices unchanged.

Havana is steadily improving. A heavy business, number about 4,000 bales, was transacted; low-priced goods are becoming scarce. Quotations, 85 cents to \$1.20.—United States Tobacco Journal.

CONSUMPTION VALLEY.

The warm, moist weather of the past week has wonderfully hastened the growth of tobacco. We heard a young farmer say that his crop would need topping in a week. This, probably, is true, as it stands nearly or quite two feet high, and the buds will soon show. This is only true of the early set pieces. There are many pieces where the leaves have not yet attained the size of a man's hand, yet they are now growing very rapidly. These late crops, if they ripen, will generally make fine leaf.

From Sullivan Ct., our correspondent writes under date of July 27: "Tobacco is everywhere in the hands of the growers, and the rain of the last Tuesday started it to grow. It has looked hard in this section. A few cases of '84 second sold the past two weeks at prices ranging from 11 to 18c."

Reading Hills, July 27: "The tobacco crop hasn't looked as bad in the last thirty years as it does now. About every piece has been set three times, and some more. The dry windy days and the cut worm are among the causes. The plants would either dry up, or the worms would eat them up as fast as we could spray them."

Deerfield, July 20: "Tobacco grows finely, but is a little late.—American Cultivator."

Onto.

The intense heat of the week was too severe to endure upon the roads, and buyers generally sought the shade.

The latest estimates assert that two-thirds of the '84 Little Dutch have been bought.

A fine rain visited this locality, Wednesday, materially brightening the prospects of the growing leaf. In localities east and west, tobacco is suffering from drought.—Montgomery Bulletin.

PENNSYLVANIA.

Our home market was quiet during the week. The volume of business was 350 cases, all told, divided between 1874 Havana seed and seedleaf of previous years.

The transacted cases have been in small amounts, the manufacturers having been the most frequent buyers. Holders of last year's crop believe they have a very superior article and are not disposed to offer bargains in the direction of a cash sale in prices. What little tobacco of last year's crop still remaining in the hands of the growers now commands the highest figures of the season, and when desirable, no trouble is found in selling it.

The growing tobacco has had a hard time of it since our last report. Unbroken dry weather has prevailed in nearly every part of the county and its effects on the tobacco fields can easily be imagined. Just at the time when none are needed they have failed the growers and the growing crop is in danger. On low-lying fields and bottoms, where there is considerable natural moisture, the crop looks fairly well, with occasional fine patches, but on the uplands the plants seem not only to have come to a stand still but to be slowly drying up.—New Era.

Young or middle-aged men, suffering from nervous debility and kindred weaknesses, should send ten cents in stamps for large treatise giving successful treatment. World's Dispensary Medical Association, Buffalo, N. Y.

GOOD SHOOTING.

How the City Police Force Shot a Dog.

Down in the fourth ward resides a family who are the unfortunate possessors of a stray dog. The canine is of no particular variety, and possesses the one merit of being large and homey. A little girl in the family became wonderfully attached to the dog, and when recently the animal created a panic in the neighborhood by biting one of the juvenile inhabitants, and the decree went forth that the dog must be shot, the little girl was the only friend who evidenced any sympathy for the unfortunate straggler. Her influence was not sufficient, however, to avert the death penalty, and when the day and date arrived there might have been seen a solemn procession, wending their way to the abode of the victim. The hour was nine o'clock p. m. the night was dark and as the squad of vigilant officers including all the west side force followed by an able corps of assistants, marched in solid phalanx, they presented the appearance of an invincible club, out on a torch-light promenade. When the horse was reached, the force surrounded the back yard, and a line of pickets was thrown out to prevent the dog from escaping from the enclosure. A rope speedily encircled the animal's neck, to which was attached a veteran member of the force, with instructions to hold on. The light of a torch flashed across the open countenance of
